# PREFACE.

In the preparation of this book, it has been the aim of the author and publisher to make it one of the most useful and unique works in its line ever published.

By a simple, brief and concise method, "THE CONSOLIDATED STREET LOCATOR AND STREET RAILWAY INDICATOR" shows the location of all the streets and avenues in the city, and indicates the street railway lines by which each street or avenue can be reached.

It also contains a list of the many points of interest and places of amusement in the city, and indicates the street railway lines reaching them.

The merit and practical utility of this work will be readily appreciated upon examination.

# General Index.

---

Explanatory Notes.....	6-7
Street Railways, Numbered.....	8-9
Street Locator and Indicator .....	9 to 45
Street Railway Routes Described .....	46 to 62

Public Institutions.....	71
Summer Gardens.....	68
Theatres .....	66
Ticket Offices .....	68

THE CONSOLIDATED

# STREET LOCATOR

AND

## Street Railway Indicator.

—O—

### EXPLANATORY NOTES.

The "STREET LOCATOR" locates streets by the original block system. The general rule is that each block shall represent 100 numbers going westwardly from the wharf, and the same north or south of Market street and Laclede avenue.

Market street and Laclede avenue is the dividing line of all streets crossing them; North of this line is North Broadway, North Sixth street, North Grand avenue, etc.; South of this line is South Broadway, South Sixth street, South Grand avenue., etc.

In this work two ciphers (00) will indicate the Wharf or Market street and Laclede avenue.

The Street Railway Systems of St. Louis, which are composed of thirty-five distinct routes, are arranged alphabetically, and numbered from one up to thirty-five; these numbers are used to indicate the different street car lines which cross or reach any particular street.

The following examples will illustrate the method pursued in locating any particular street and indicating the Street Railway lines reaching it:

ACADEMY av.  
5100 W from 700 to 1500 N  
2, 11, 12, 27

Means that Academy avenue is 51 blocks west of the Wharf and extends from 7 to 15 blocks north of Market street and Laclede avenue, and is 8 blocks in length. The numbers 2, 11, 12 and 27 indicate that the street car lines which they represent will reach Academy avenue.

ANGELICA  
4100 N from 00 to 2500 W  
5, 24, 28

Means that Angelica street is 41 blocks north of Market street and Laclede avenue, and extends from the Wharf to 25 blocks west. The numbers 5, 24 and 28 indicate that the street car lines which they represent will reach Angelica street.

SARAH South  
4100 W from 00 to 1100 S  
9, 18

Means that south Sarah street is 41 blocks west of the Wharf, and extends from Market street and Laclede avenue to 11 blocks south. The numbers 9 and 18 indicate that the street car lines which they represent will reach south Sarah street.

On the following page the Street Car Routes are arranged alphabetically and numbered. The left hand column of figures indicate the numbers which represent each Street Railway line, and the right hand column indicates the pages where a description of each line will be found, also the points of transfer and owl car time table of each line.
